Extending Children's Knowledge Following children's interests

Washing Cars

Many of our children have shown an ongoing interest in washing and fixing cars. We will enhance their play by providing tool boxes to fix cars as well as providing car washing stations outdoors. We will provide the children with hoses, sponges, buckets, wipes and other tools they can use to fix and clean their cars. This will allow us to continue to talk to the children about the importance of hygiene and keeping our toys clean. We will arrange a visit to the local car show room, Oasis. In addition we will make links about roads, vehicles and pedestrians, to build on children's awareness of road safety.

Shadows

Children have displayed a key fascination in noticing their shadows on the ground on sunny days. We will support children to develop their thinking and observational skills by discussing why shadows appear and change. We will encourage children to make their shadows move so that they can come to understand that the way a shadow falls depends on the position of the light source.

Introducing New Knowledge and Skills This is what we will teach the children

Our core story this term will be: **The Rainbow**

Fish by Marcus Pfister- This is an award winning book about a beautiful fish who finds friendship and happiness when he learns to share with others. The storyline of this book will help to support children with their transitions to primary school in September and we will also refer to the rainbow fish when teaching the children about making choices, building friendships and sharing through verbal communication and interaction with each other.

The core story in Purple room is: **Walking through the Jungle** by Debbie Harter. This

book takes the children on a whirlwind tour around the habitats of the world, through the jungle to the oceans. They encounter a whole host of wild animals that roar and growl before chasing them all the way back home. We will teach the children to recognise rhyme learn about words, sounds and language formation, hearing rhyme, rhythm and repetition helps children develop early literacy skills. We will visit our wild life garden to have interactive story sessions

A visit to the local pet shop will be arranged to see the different animals and the aquarium as it will inspire the children and help to improve imagination, social and emotional skills. We will teach the children about the different types of fish and their unique body parts like gills, fins and their tails which help them to swim.

Pre reading skills

We will continue to prepare for transition to Primary schools using songs and rhymes to build phonemic awareness and sounds of words. We will use puppets alongside stories to develop children's vocabulary further.

Things you can do to support your child's learning

Supporting transition from nursery to reception.

Many of our children will be leaving us at the end of this term to move to their new schools in September. We will focus on this transition in order to build their confidence as we understand this is a big change for you and your child. We will focus on the story "**I am too absolutely small for school**" featuring the children's favourite characters Charlie and Lola. We hope that by reading this and other stories we will help support the children to understand their upcoming transitions to school. There will be lots of different uniforms set up as part of an imaginative role play "Going to school" where children can dress up and talk about the different emotions they are going through with this change.

You could support this by:

- Talking about going to a new school in September. If you know the teacher's name, talk about them.
- Allowing your child to help prepare their uniform in advance.
- Walking or driving past the school and talking about it. Look for the entrance you will use.
- Look out for the school badge or logo on letters and signs outside the school.
- Take photos of all the wonderful things you do together to show your new teacher in September.
