

Keeping up with your children's maths

This online course allows parents to explore the curriculum which their children will experience, try some maths, and see calculations and more maths in practise!

On this course learners can:

- Make sense of the maths curriculum and become familiar with it
- Understand some strategies of how maths is taught
- Experience examples of primary maths teaching
- Increase confidence as a parent, how to support your child
- Experience a broader sense of how maths fits into your child's world
- See how you can create new, fun games to develop maths learning
